INDEX OF AUTHORS

Abney
  functional projections 289–290, 292
Ackema
  auxiliary selection and argument structure 824–825
Aoun
  Binding Theory and Mandarin Chinese 439–442
Aoun and Li
  Chinese pronouns 457–460

Besten den, and Moed-van Walraven
  Yiddish word order 381–383, 386
Bobaljik
  ergativity 181–182, 683
Borer
  auxiliary selection purely syntactic 826–828
Bures
  transitivity and operators 32, 39
  verb movement 414

Chomsky
  adverb position in Minimalist program 10
  Avoid Pronoun 232
  Binding Theory 429–430
  Case checking 187–189
  checking 15
  checking domains and head movement 26–28
  Extended Projection Principle 15
  feature checking 682, 691
  French object agreement 71
  Full Interpretation 116, 509, 511
  LF cross-linguistically stable 240
  M-command 273–275
  Minimal Link Condition 705–706
  Minimalist program 3–4, 569, 678
  Minimalist program and French *ce* 448, 450
  Minimalist program and morphology 448, 450
  movement to specifier position 24–25
Chomsky and Lasnik
  Minimal Link Condition 23–25, 32–33
Cinque
  antecedent government 534–538, 557, 566
Clements
  Luganda glides 148–149, 160
Collins and Thráinsson
  Icelandic verb phrase order 403, 408

Dayal
  analysis of Hindi does not apply to Hungarian 557–564
  applicability of Hindi analysis 540–541, 546, 554, 557–564, 567–570
  Hindi scope marking 512, 526–527
Dikken den
  auxiliary selection and unaccusativity 828–831
  particles 641–665

É. Kiss
  Hungarian Wh-movement 513–514, 544

Finer
  switch-reference 246

Geilfuss
  Yiddish word order 383, 386–388, 391
Giorgi and Longobardi
  Consistency Principle 755
  NP in Italian 773

Harley
  EventP 241
Higginbotham
  theta roles identification 102–103
Holmberg
  Icelandic verb phrase order 400–402, 407–408, 411

Jackendoff
lexical semantics 792, 797, 800, 802–804, 813, 817

Kayne
auxiliary selection purely syntactic 825–826
French object agreement 71
particles and small clauses 641–645, 652
stylistic inversion 21, 31, 33
Kayne and Pollock
stylistic inversion 17, 21
Kenesei
Hungarian Wh-movement 544–546
Kenstowicz
cyclical analyses and alternatives 466, 483–484, 492–493, 498–499, 502, 504

Lasnik
anaphoric epithets are R-expressions 454
Binding Theory 430–431
Lasnik and Uriagereka
Binding Theory 430
Leben
Obligatory Contour Principle 847

Mahajan
absolutive 183
ergative is lexical 191
Hindi ergative and dative 193
Marácz
Hungarian partial Wh-movement 510–511, 513
Marantz
theta role matching 99–101
McCarthy
Obligatory Contour Principle 847
McCarthy and Prince
identity constraints in Optimality Theory 493–497
Optimality Theory 140, 142–143, 851–853
McDaniel
partial Wh-movement 509, 511, 513, 519–521, 530, 554, 563, 568
Wh-chain, definition of 521
Meeussen
Meeussen's Rule in Shona 856–860

Moens and Steedman
aspect 449

Neale
definite descriptions not referring expressions 445

Odden
Kishambaa tone 880–887
Ortiz de Urbina
Basque clausal pied piping 547–557

Picallo
domain extension 233
Pinker
lexical decomposition 794–795
Pollock
adverb placement and negation 62–63, 66, 76
Prince and Smolensky
Optimality Theory 140, 142, 160–161, 465–466, 851–854

Ritter
Hebrew possessors 766–768
Rizzi
antecedent government 534–538, 557
head government 698
relativized minimality 23, 25, 32, 563–564, 567–570
Wh-criterion 520–521
Rude
Nez Perce 185–188, 208–214

Samiian
Ezafe construction in Persian 735–737
Santorini
Yiddish word order 381–384, 389
Schadeberg
Rimi tone 875–880
Speas
functional projections 289–290
Sportiche
clitics and movement 574–575

Tenny
aspect 97–98

Valois and Dupuis

stylistic inversion 17, 23
Van Valen
auxiliary selection and Aktionsart 823

Watanabe
Agr raising 27, 31, 34, 240
Weerman
Dutch PPs and word order 112–113
Williams
predication and c-command 94–99

Yip, Maling and Jackendoff
dative a lexical Case 191–193

Zaenen
auxiliary selection and telicity 823–824

INDEX OF LANGUAGES

Arabic, Moroccan
  negative polarity 263–286
  negative polarity, summary 263–270
  sentential negation 263–270

Bahasa Indonesian
  see Indonesian, Bahasa
Bantu
  see Kimatuumbi, Kishambaa, Luganda, Rimi, Shona
Basque
  clausal pied piping 547–557

Chinese, Mandarin
  French split binding and 446–460
  nominal compounds described 467–469
  pronouns 439–441, 457–460
  split binding and pronouns 457–460
Chinese, Shanghai
  compounds, stress, and the cycle 465
  metrical structure 472–503
  stress and the cycle 465, 480–482
  stress and tone domains 472–503
  stress facts 471–479
  tone domains and stress 472–503
  tone facts 469–479

Dutch
  adjectival Agr may be final 344–352
  adjectival phrases and scrambling 332–344
  adjectival projection 289–365
  adjectives and PP-complements 323–327
  adjectives and word order 289, 298–302, 337–352
  adverb order 300–302
  auxiliary selection and verb classes 803–815, 833–843
  auxiliary selection is at level of conceptual structure 789–833
  comparatives and head-to-head movement 295
  complex verbs and auxiliary selection with [IEPS] 816–819
  Deg is head initial 332–344
  directional phrases and auxiliary selection with [IEPS] 809–811
  extraction from adjectival phrases 323–327, 341–352
  extraction from PP-complements of adjectives 323–327
  hebben selected by transitives 805–807
  hebben selected by unergatives 805–807
  idioms and auxiliary selection with [IEPS] 813–815
  inchoatives select *zijn* 804–805
  light verbs and auxiliary selection with [IEPS] 811–813
  mixed directionality of headedness 352–365
  object shift compared with Yiddish scrambling 404–405
  object shift is A-movement 407–409
  particles and auxiliary selection 819–821
  passive, perfect selects *zijn* 815
  PP-arguments 110–114
  PP-complements 89–135, 323–327
  PP-complements of adjectives 323–327
  resultatives 81–84
  scrambling and adjectival phrases 332–344
  transitives select *hebben* 805–807, 809–811
  transitives select *zijn* with [IEPS] 809–811
  unaccusatives select *zijn* 803–805
  unergatives select *hebben* 805–807
  word order 110–114, 289–302, 323–327, 332–352, 404–409
  word order in adjectival phrases 298–302, 337–352
  zijn selected by inchoatives 804–805
  zijn selected by perfect passive 815

zijn selected by transitives with [+IEPS] component 809–811
zijn selected by unaccusatives 803–805
zijn selected by unergatives with directional phrase 807–809, 831–832

Ebonics 667–675
Edo
particles and word order 645–646
English
N-feature checking compared with French 15–19
resultatives 81–84
Etsako (Kwa)
constraint ranking differs from Luganda 162–164, 171–174
syllable structure 162–164, 171–174

French
agreement 47, 50–51, 62, 71–84
demonstrative *ce*, noncoreference constraints on 429, 432
demonstrative *ce*, Principle B and 444–445
demonstrative *ce*, Principle C and 444–445
floating quantifiers, objects and 627–632
functional projections in 43, 64
Mandarin Chinese split binding compared with 446–460
N-feature checking in English compared with 15–19
obviation 232, 238
past participle agreement 624–626
pronominal affixes analyzed in HPSG 585–598
pronominal clitics are affixes 573
resultatives 81–84
secondary predication 43–85
small clauses 43–85
tous-floating 58–62

German
scrambling and scope 376–380
Yiddish scrambling compared with 404–405

Hausa
Spec-C in 17
Hebrew
construct state NPs and Persian *Ezafe* forms 766–768
Hindi
compared to Hungarian 540, 552, 559, 563
scope marking 509, 512, 526–527
Hungarian
CP-movement 509, 512
expletives associated with CPs 544–547
Wh-movement 509, 511–570
Wh-movement, partial 509–570
Wh-movement, partial, exemplified 510, 514–517
Wh-movement, partial, links Wh-operator to CP 539–557
Wh-movement, unbounded 513

Icelandic
definiteness condition 412
object shift compared with Yiddish scrambling 400–403
object shift is A-movement 407–409
Indonesian, Bahasa
partial Wh-movement 569
Kalkatungu (Australia)
agreement and Case 217–219

Kimatuumbi
Luganda and differ in constraint ranking 165–174
syllable structure 165–174
Kishambaa
tonal dissimilation and the OCP 847, 849, 853

Luganda
Etsako and, differ in constraint ranking 162–164, 171–174
syllable structure 148–161, 171–174

Mandarin Chinese
see Chinese, Mandarin
Modern Persian
see Persian
Mohawk
particles and incorporation 659–663
Mojave
switch-reference and obviation 246

Nez Perce
agreement is subject-object 208–214
Case system four-way 185–187
ergative is lexical 189–198

Persian
Ezafe construction 729–731, 735–754, 760
modifiers of nouns are heads in *Ezafe* construction 729
nouns nonprojecting 729–778
possessors, *Ezafe* and 760
possessors, structure of 759–778
prepositions fall into three classes 744–750
some prepositions nominal 744–750

Rimi (Bantu)
tonal dissimilation and the OCP 847, 849, 853,
Russian
dative subjects and subjunctive obviation 235–236
negative polarity 236–237
obviation and possessives 235
obviation and subjunctive 229–239
obviation and Tense 237–240, 245–256
possessives and obviation 235
subjunctive and obviation 229–239
subjunctive obviation and dative subjects 235–236
Tense and obviation 237–240, 245–256

Selayarese
absolutive agreement and movement 688–692, 696–699, 701–702, 717–719, 721
agreement and complementizers 679–692, 696–699
Case 681–682
complementizer originates as verb 707–713
complementizers and question types 678, 696–699
ergativity 679–687
focus projection 691–695
object position and verbal morphology 679–680, 687–692
subject position and verbal morphology 679–680, 687–692
verbal morphology and object position 679–680, 687–692
verbal morphology and subject position 679–680, 687–692
Wh-operator binds null element 713–719
Wh-questions exhibit two patterns 677
Shanghai
see Chinese, Shanghai
Shona
tonal dissimilation and the OCP 847–849, 853–875
tone domains 854–856, 869–875

Thangu (Australia)
agreement and Case 214–216

Yiddish
adverbs and verb-object order 393
excludes object shift 369
German scrambling compared with 404–405
head final and head initial both considered 381–383
head initial for verb phrase 393–399
NP moves left and right 381–383
order of object and verb semantically relevant 389–399
resultatives and verb phrase order 396–399
scrambling 369, 381–383, 404–405
scrambling and object shift in Dutch compared 404–405
scrambling semantically driven 369
verb is phrase initial 369–399
verb-object is underlying order 393–399
word order 369–399, 404–405
Yoruba
Luganda and, differ in constraint ranking 164–165, 171–174
syllable structure 164–165, 171–174

INDEX OF SUBJECTS

A^0-to-Q^0 raising
  adjectival phrases and 316–332
  agreement of degree modifiers supports 327–331
  evidence for 323–332
  extraction from PP-complements supports 323–327
  inversion of *genoeg* (Dutch: enough) supports 331–332
  see also adjectival projection, agreement, AP, head-to-head movement, raising, word order
A-bar chains
  see chains, A-bar; Wh-chains
A-bar expletive
  see Wh-expletive
A-bar movement
  scrambling is, in Yiddish and German 407–409
  see also A-bar chains, A-bar position, A movement, antecedent government, chains, complementizers, extraction, inversion, landing sites, LF, licensing, Minimalist program, minimality, movement, operator, pied piping, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order
A-bar position
  of Wh-phrase in partial Wh-movement 519
  SpecFP is 692–694
  see also A-bar chains, A-bar movement, antecedent government, chains, complementizers, extraction, inversion, landing sites, licensing, minimality, movement, operator, pied piping, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order
A movement
  object shift is in Dutch and Icelandic 407–409
  quote fronting is not 19–20
  see also A^0-to-Q^0raising, absolutive, Case, ergative, head-to-head movement, passive, raising, word order
absolutive
  agreement and movement 688–692, 696–699, 701–702, 717–719, 721
  topic and 718
  see also Case, ergative
adjectival phrase
  see AP
adjectival projection
  nominal projection compared with 312, 321
  verbal projection compared with 312, 314–321
  see also A^0-to-Q^0 raising, AgrP, AP, functional heads, functional projections
adjunct islands
  partial Wh-movement from 537
  see also A-bar chains, A-bar movement, chains, extraction, inversion, landing sites, licensing, operator, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions
adjunction
  of VP-external adverbs 9–10
  see also movement, word order
adverb
  order of and DegP 300–302
  position of and verb-object order in Yiddish 393

VP-external, position of 9–10
see also word order
affixes, pronominal
French 573
French, analyzed in HPSG 585–598
French, are lexically attached inflections 575–579
French, are not postlexical clitics 575–579
ordering of, and movement 574
ordering of not syntactic 573
see also clitics, pronominal affixation, pronouns
agreement
adjectival degree modifiers and, in Dutch 327–331
Case and, in Kalkatungu 217–219
Case and, in Thangu 214–216
complementizers and 679–692, 696–699, 709–713
complementizers and, in Selayarese 709–713
dative subjects and 235–236
ergative, in Selayarese 679–687
features on functional heads 677
in Nez Perce is subject-object 208–214
of degree modifiers and A^0-to-Q^0 raising 327–331
past participle, in French 624–626
projections 681–682
secondary predication and 52, 71–84
Spec-head, licenses negative polarity items 263, 272–273, 275–279
Wh-scope marker and 527, 529, 542
see also absolutive, agreement, AgrO, AgrP, AgrS, Case, ergative, object, Spec-head agreement, subject
AgrP (agreement phrase)
in adjectival phrases 289–290, 344–352
raising 27, 31–37, 240–241, 244–256
see also absolutive, adjectival projection, agreement, AgrO, AgrS, Case, ergative, functional heads, functional projections, object, Spec-head agreement
AgrO (object agreement)
not pronominal in Russian 248
see also absolutive, agreement, AgrP, AgrS, Case, ergative, object
AgrS (subject agreement)
pronominal in Russian 240, 256–256
see also absolutive, agreement, AgrO, AgrP, Case, ergative, subject
Aktionsart
auxiliary selection and 823
alignment
optimality analysis of stress with, in Shanghai Chinese 482–493
see also identity constraints, OT
anaphora
secondary predication and 53–54
see also binding, Binding Theory, clitics, Principle B, Principle C, PRO, *pro*, pronouns
antecedent government
Wh-movement blocked by failure of 703–704
Wh-operators and 534–538
Anti-Meeussen's Rule
Rimi, avoids OCP violation 875–880
AP
Agr proposed for 344–352
complement of Deg 292–365
extraction from 341–352
see also A^0-to-Q^0 raising, adjectival projection, AgrP, AP, functional heads, functional projections
applicatives
particles and 641–642, 658
argument composition
French pronominal affixes and, in HPSG 604–610
argument structure
auxiliary selection and 824–825
see also arguments, auxiliary selection
arguments
PPs as 91–92
see also argument structure, clause structure, licensing, theta-binding, theta roles
aspect
ce and 449–450
PPs and 97–99
see also auxiliary selection, [IEPS]
assignment, indirect
see indirect assignment
auxiliary selection in Dutch
Aktionsart and 823

argument structure and 824–825
complex verbs and 816–819
conceptual structure responsible for 789–833
directional phrases and 807–809
idioms and 813–815
[IEPS] and 796–798, 831–832
inchoatives and 803–805
intransitives and 805–807
light verbs and 811–813
morphology and 816–819
outline of 790–792
particles and 819–821
perfect passive and 815
purely syntactic analyses of 825–831
telicity and 823–824, 831–832
transitives and 805–807
type coercion and 821–823
unaccusatives and 828–831
unergatives and 807–809, 831–832
verb classes for 833–843
see also directional phrase, *hebben*, idioms, [IEPS], inchoatives, intransitives, light verbs, passive, transitives, unaccusatives, unergatives, *zijn*

binders
quantification and 444–445
binding
of gap by Wh-operator 677
split, in Chinese and French 446–460
theta-, of referential degree argument 317–321
weak crossover and 695, 715
see also argument structure, Binding Theory, clause structure, licensing, Principle B, Principle C, PRO, *pro*, pronouns, theta roles
Binding Theory
LF and 245, 252–253
outline of 429–432
small clauses and 54
split binding and 429
subjunctives and 229, 233, 245–248, 252–253, 256–261
see also argument structure, binding, clause structure, licensing, Principle B, Principle C, PRO, *pro*, pronouns
Burzio's Generalization reinterpreted 207
see also Case, chains

c-command
licenses negative polarity 263, 272–273, 283
predication and 94–99
see also argument structure, binding, clause structure, licensing, Principle B, Principle C, PRO, subjacency, Wh-chains, Wh-movement, Wh-operator, Wh-questions
Case
agreement and, in Kalkatungu 217–219
agreement and, in Thangu 214–216
assigned to objects in two places 223
checking 33–38, 187–189, 528–529, 681–682
checking and inversion 33–38
checking in Nez Perce 187–189
checking of Wh-operators 528–529
Ezafe vowel and, in Persian 750–751
inventory 181–184
marking and incorporation 683–685
Nez Perce is four-way 185–187
object is limited by ergative subject Case198–201
PP-complements and 110–114
PP-incorporation and 110–114
Selayarese 681–682
structural, and objects 181–184
Wh-scope marker and 527–528, 542
see also absolutive, agreement, AgrO, AgrP, AgrS, dative, ergative, object, Spec-head agreement, subject
causatives
lexical conceptual structure of 793–795
particles and 641–642, 656–658
see also auxiliary selection
ce, demonstrative (French)
anaphoric epithets and 434–438
aspect and 449–450
clause typing and 450–454
movement at LF and 451
operator at LF 451
pronouns and 434–438, 446–454
properties of 429, 432–438
see also argument structure, binding, Binding Theory, clause structure, LF,

licensing, operator, Principle B, Principle C, PRO, *pro*, pronouns, theta-binding, theta roles
chains A-bar, and Wh-movement 704–706
mixed, and Wh-movement 705–706
see also A-bar movement, A-bar position, A movement, antecedent government, Burzio's Generalization, complementizers, extraction, inversion, landing sites, licensing, minimality, Minimalist program, movement, operator, pied piping, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order checking leftward movement and 369–370
of Case 33–38, 187–189, 528–529, 681–682
of Case, and Wh-operators 528–529
of Case in inversion 33–38
of Case, in Nez Perce 187–189
see also agreement, Case, Checking Theory, licensing, Minimalist program, movement, operator, pied piping, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order
Checking Theory
quotative inversion and 15–19
see also agreement, AgrP, AgrO, AgrS, Case, checking, licensing, Minimalist program, movement, operator, pied piping, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order
clause
small, and Binding Theory 54
small, and particles 644
small, in French 43–85
structure, in Minimalist program 3–4
structure of quotative inversion 5–15
see also agreement, Binding Theory, Case, checking, licensing, Minimalist program, movement, operator, quotative inversion, scope, scrambling, stylistic inversion, subjacency, Wh-chains, Wh-expletive, Wh-movement, Wh-operator, Wh-questions, word order
clause typing
ce (French) and 450–454
clitic
climbing, analysis of in HPSG 598–623
clitics
pronominal, are affixes in French 573
ordering of not syntactic 573
see also clitics, pronominal affixes, pronouns
comparatives
